## Executive Summary

Highly motivated Full Stack Developer with hands-on experience designing, building, and deploying dynamic web applications. Skilled in Java web technologies, database architecture, and secure user authentication. A proactive problem-solver and quick learner, eager to bring end-to-end development experience to a collaborative engineering team.

## Technical Skills

- **Programming Languages:** Java, JavaScript, Python
- **Web, UI Technologies:** HTML, CSS, Bootstrap, JSP
- **Database Management:** MySQL, JDBC
- **Backend and Architecture:** Java Servlets, MVC Pattern, Three-Tier Architecture
- **Tools and Platforms:** Git/GitHub, Docker, Render (Cloud Hosting), Apache Tomcat, Maven, Eclipse IDE, VS Code
- **Core Concepts:** Object-Oriented Programming (OOP), Secure Password Management, DSA

## Projects

- **HK Fashion Store (Full-Stack E-Commerce Platform)** | [Live Demo](#)  May - Jun 2026  
**Technologies:** Java (Servlets, JSP), MySQL, MVC Architecture, Docker, Render, Bootstrap
  - Engineered a scalable e-commerce platform using a strict three-tier MVC architecture to decouple business logic, data access, and UI.
  - Architected a MySQL relational database to manage secure authentication, dynamic carts, and real-time inventory.
  - Containerized the application with Docker and successfully deployed it to a live cloud environment via Render.**Outcome:** Demonstrated full-stack mastery by architecting, containerizing, and deploying a Java MVC application.

## Internships

- **Full Stack Web Developer Intern [Tap Academy]** Jan - Jun 2026
  - Engineered responsive, interactive full-stack web applications by seamlessly integrating Java backends with HTML, CSS, and JavaScript frontends.
  - Implemented end-to-end application logic and secure database connectivity for real-time data processing.
  - Optimized codebase stability and performance through rigorous debugging and automated testing across the SDLC.
- **Cloud Computing Intern [Embrizon Technologies]** Jun - Aug 2025
  - Architected scalable cloud environments utilizing Microsoft Azure.
  - Provisioned secure Azure infrastructure, including VMs, SQL Databases, Storage Accounts, and Key Vaults.
  - Engineered low-latency cloud components to optimize system reliability and overall data processing efficiency.

## Education

- Sreenivasa Institute of Technology and Management Studies** Sep 2022 - May 2026  
*B.Tech in Computer Science and Engineering*
  - CGPA: 6.7
- Vijayam Jr College** Jun 2020 - May 2022  
*Mathematics, Physics, Chemistry*
  - Percentage: 54.7
- Devi Bala Mandhir E.M. High School** Mar 2020  
*S.S.C*
  - CGPA: 9.8
