Executive Summary

Computer Science Engineering student with hands-on experience in Full Stack Development, Java, JavaScript, Python, and Azure Cloud. Skilled in building secure web applications using HTML, CSS, JavaScript, and MySQL. Strong knowledge of Data Structures, OOP, and problem-solving with practical experience through internships and projects.

Technical Skills

- **Programming Languages:** Java, Python, JavaScript
- **Web Technologies:** HTML, CSS
- **Database Management:** MySQL
- **Backend Frameworks:** Java
- **Tools and Platforms:** GitHub, VS Code, XAMPP
- **Core Concepts:** Object-Oriented Programming (OOP), DSA

Projects

- **Secure Password Generator Web Application** Jan - Apr 2025
Technologies: HTML, CSS, PHP, XAMPP Server
 - Designed and developed a secure backend-driven web application. Implemented password entropy, complexity validation, and auto-generation logic.
 - Followed SDLC phases including development, testing, and deployment.
 - optimized backend logic to reduce response time and improve efficiency.**Outcome:** Strengthened skills in secure web development, implementation, testing, and user-focused design.

Internships

- **Cloud Intern [Embrizon Technologies]** Jun- Aug 2025
 - Designed and deployed scalable cloud solutions using Microsoft Azure.
 - Worked with Azure Virtual Machines, Storage Account, SQL Database, and Key Vault.
 - Assisted in building low-latency and reliable cloud components.
- **Full Stack Web Developer Intern [Tap Academy]** Jan - May 2026
 - Developed responsive and user-friendly web applications using HTML, CSS, JavaScript, and Java.
 - Worked on frontend and backend development concepts including database connectivity and application functionality.
 - Improved problem-solving and debugging skills through real-time project development and testing.
